

Natera Manual Requisition Workflow

Effective: Tuesday, August 22, 2023

For patients presenting to the OP Lab/PSC with NSLS manual requisitions or scripts. The Natera paper requisition must be provided in order to transcribe the order into EPIC.

Panorama Prenatal Test

- Order LAB1658 - PANORAMA PRENATAL TEST FULL PANEL in EPIC
- NOTE:** Please order this procedure if the requisition indicates NIPS or Panorama NIPS

Horizon Test

- For Horizon testing there are multiple tests available for ordering in EPIC.
- Do not order any testing in EPIC.
- Order SoftLab test code HORZN - NATERA HORIZON CARRIER SCRIN
- Forward the Natera requisition with the specimen
- Results will need to be scanned into EPIC upon receipt

EPIC Order Screen Panorama Prenatal Test Full Panel

- EPIC will default responses as appropriate for applicable questions
